

XOANONS® Dispersing agent

Model number

XOANONS®WE-D2645R

Specification

Composition	High M.W. block style copolymer solution with pigment affinity groups
Appearance	Yellowish clear liquid
Solvent	Dibasic ester
Active substance	45%
Density	1.07-1.11g/ml(25 ± 1)°C
Viscosity	10-40s(Tu-4 viscometer)(25 ± 0.2)°C
Flash point	> 100°C

Note: This datasheet is intended to give typical results, not standard. Subject to COA.

Application system

Solvent-based

Properties

- Excellent performance of viscosity reduction, dispersing, and good stability without foam-inhibition in medium and high pigment carbon black system.
- Reduce viscosity and fineness, and high performance of color hue and storage stability in solvent-free epoxy color paints.

Incorporation

Should be incorporated to the mill base before add pigments.

Suggest addition

Inorganic pigment	1-10%
Organic pigment	15-35%
Carbon black	25-100%

Storage stability

Keep intact 24 months in original package. Products beyond the storage period may continue to be used after inspection. The container must be closed immediately after use.

package

25KG / 180KG
